EXPERIENCE

Researcher at a Mobile Network Research Laboratory Mobilenet: *University of Málaga*

JANUARY 2024 - PRESENT

Python and JavaScript developer of a Wi-Fi optimization system for densely populated urban environments. Development of a user interface to use a Wi-Fi simulator, including backend with Python adding concurrency to the simulator and frontend with Astro and React.

Research Intern at a Mobile Network Research Laboratory Mobilenet: *University of Málaga*

MARCH 2023 - JANUARY 2024

Developer of a Wi-Fi network management evaluation platform. A network with multiple Wi-Fi access points manageable through a REST API developed in python. Including a user interface for management.

EDUCATION

Master's Degree in Telematics and Telecommunication Networks *University of Málaga*

SEPTEMBER 2024 - PRESENT

Official Master's Degree in the University of Málaga.

Bachelor's Degree in Telecommunication engineering *University of Málaga*

SEPTEMBER 2020 - SEPTEMBER 2024

Specialty in the field of telematics.

Semester exchange *University of Stuttgart*

MARCH 2024 - SEPTEMBER 2024

Extra courses: Machine Learning, Reinforcement Learning, System and Web Security, VR & AR, and Smart Cities and IoT.

PROGRAMMING LANGUAGES AND FRAMEWORKS

Python, C/C++, Java, JavaScript, TypeScript, HTML, CSS, Astro, React, Tailwind CSS, PHP, Unity/C#, Docker

LANGUAGES

Spanish - Native
English - C1 - Aptis ESOL
German - B1 - Official School of Languages, Spain

ABOUT ME

I hold a Bachelor's degree in **Telecommunications Engineering** and I am currently pursuing a **Master's degree** in Telematics and Telecommunications Networks at the University of Málaga, with plans to continue into a **PhD**.

Since March 2023, I've been working at the **Mobilenet laboratory** at the University of Málaga, developing a network management evaluation platform and a **web interface** for a Wi-Fi simulator using **Python**, **Astro**, **React** and databases.

My **Erasmus exchange** in Stuttgart enhanced my skills, and I aim to advance my career in **telecommunications**.
